(*5*) Nothing in sub-regulations (*2*), (*3*) and (*4*) shall apply to workings in a mine made before the coming into force of this regulation. In such workings the following provisions shall apply, except in depillaring operations:—

(*a*) if the distances between the centres of adjacent pillars are smaller than those specified in the table appended to sub-regulation (*4*), the pillars shall not be further reduced;

"80. (1) In any mine in which two or more seams or sections of a seam are close to each other, the pillars in the one seam or section shall, where the strata are not highly inclined, be, as far as practicable, vertically above or below the pillars in the other seam or section.

(2) No work in a higher seam or section shall be done over an area in a lower seam or section which may collapse unexpectedly.

(3) No seam in a mine shall be worked in more than one section without the permission in writing of the Chief Inspector and under such conditions for ensuring the stability and safety of the workings as he may specify.

(4) Every application for permission under sub-regulation (3) shall be accompanied by a plan showing the proposed layout of the workings, the thickness of the seam, the depth of the seam from the surface, the rate and direction of dip, the dimensions of pillars and galleries in each section and the thickness of the parting between the sections.

(5) Where a seam in a mine is worked in two or more sections every such section shall be deemed to form a separate seam and the parting left between any two such sections shall not be less than 10 feet in thickness:

Provided that an Inspector may by order in writing—

(a) permit a smaller thickness of parting, if he is of opinion that the stability of the workings will not be affected thereby, or

(b) require a greater thickness of parting, if he is of opinion that such greater thickness is necessary for the safety of the workings."

V. After regulation 80, the following regulation shall be inserted, namely:—

"80A. If in any mine it appears to an Inspector authorised in this behalf in writing by the Chief Inspector that the provisions of regulation 77, regulation 78 or regulation 80 or of any order issued under any of those regulations have not been complied with, he may give notice in writing to the owner, agent or manager of the mine requiring him to take such protective measures, within such reasonable time, as he may specify in the notice; and in case of non-compliance, the Inspector may, by order in writing addressed to the person to whom the notice was given, prohibit the extraction of coal in any part of the mine until the requirements specified in the notice are complied with to his satisfaction."

(*2*) An appeal against any order passed by the Chief Inspector—

(*a*) under sub-regulation (*3*) of regulation 80; or

(*b*) on appeal under sub-regulation (*1*) of this regulation against any order of an Inspector passed under sub-regulation (*6*) of regulation 77 or sub-regulation (*5*) of regulation 80,

may be preferred to the Central Government, which shall refer the same to a Committee constituted in the manner laid down in sub-sections (*1*) and (*2*) of section 11 of the Act.

(*3*) The procedure laid down in sub-sections (*3*), (*4*) and (*5*) of section 11 of the Act shall apply to a reference made to a Committee under sub-regulation (*2*).

(*4*) Every order against which an appeal is preferred under sub-regulation (*2*) shall be complied with pending the receipt at the mine of the decision of the Committee:

Provided that the Committee may, on the application of the appellant, suspend the operation of the order appealed against pending the disposal of the appeal."

VIII. Regulation 84 shall be re-numbered as sub-regulation (*2*) of that regulation, and before that sub-regulation as so re-numbered, the following sub-regulation shall be inserted, namely:—

"(*1*) No person shall work in any place in which he has not been ordered to work either by an official of the mine or by a person authorised in this behalf by an official of the mine."

NOTIFICATION.

No. 896L.—16th September 1938.—The Governor having been pleased to order, under rule 19 of the Bengal Legislative Council Rules, 1920, as modified and adapted for the Bengal Legislative Council and for the Bengal Legislative Assembly, respectively, under section 84(3) of the Government of India Act, 1935, the publication of the following Bill, together with the Statement of Objects and Reasons which accompanies it, in the *Calcutta Gazette*, the Bill and the Statement of Objects and Reasons are accordingly hereby published for general information:—

THE BENGAL TENANCY (THIRD AMENDMENT) BILL, 1938.

A

BILL

further to amend section 52 of the Bengal Tenancy Act, 1885.

WHEREAS it is expedient further to amend section 52 of the Bengal Tenancy Act, 1885 in the manner hereinafter appearing ; VIII of 1885.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Tenancy (Third Amendment) Act, 1938.

Amendment of section 52 of Act VIII of 1885.

2. In section 52 of the Bengal Tenancy Act, 1885—

(*1*) in clause (*a*) of sub-section (*1*), after the words "without any reduction of the rent being made" the following proviso shall be inserted, namely :—

"Provided that no Court shall decree any addition of rent under this clause unless it is satisfied that there has in fact been an increase in the actual area of the tenure or holding since the rent previously paid was settled ;" and

(*2*) after sub-section (*1*) the following sub-section shall be inserted, namely :—

"(*1A*) In determining in a suit under clause (*a*) of sub-section (*1*) whether there has been an increase in the actual area of the tenure or holding, the Court shall inquire as to whether the present areas of other tenures or holdings in the vicinity which were settled at or about the same time or on the same standard of measurement as the tenure or holding in suit, show increases in area compared with the area originally settled similar to that alleged in respect of the tenure or holding in suit: if such similar increases are found to exist, it shall be presumed that there has in fact been no increase in the actual area of the tenure or holding in suit since the rent previously paid was settled"

Application.

3. (*1*) Notwithstanding anything contained in any other law—

(*a*) the provisions of section 52 of the Bengal Tenancy Act, 1885 as amended by this Act shall apply to all suits instituted thereunder on or after the date of the commencement of this Act, and also, subject to such conditions as may be prescribed, to all suits under clause (*a*) of sub-section (*1*) of that section which are pending on the said date, and

(*b*) if a decree has been passed before the commencement of this Act in a suit under the said clause instituted on or after the twenty-seventh day of August 1937, the Court shall, on application accompanied by the prescribed fee and made within six months from the commencement of this Act by a tenant against whom such decree has been passed, set aside the decree and restore and rehear the suit in the prescribed manner and in accordance with the provisions of the said section as amended by this Act.

(*2*) In this section "prescribed" means prescribed by rules made by the Provincial Government hereunder.

STATEMENT OF OBJECTS AND REASONS.

Section 52 of the Bengal Tenancy Act provides for an increase of rent where it can be proved that there has been an increase of area of a tenure or holding. Government have reason to believe that the provisions of this section have been abused in the following manner. Settlement was made on a cubit, say, of 22 inches in the past. When the record-of-rights was prepared and the standard cubit of 18 inches was applied in measuring the land, there was an apparent, but not real, increase in the number of *bighas* in a tenure or holding. With the help of misleading evidence it is often proved that in fact the standard of measurement which had been used at the time of the Settlement was an 18 inch cubit. In order to prevent this kind of fraud the present amendment of section 52(*1*) has been framed. It is not intended that a landlord should be debarred from obtaining additional rent for additional area which in fact exists owing to gradual encroachment on his *khas khamar* land or on neighbouring plots.

It will also not debar the case where additional area has been gained through alluvial action or the drying up of swampy ground contiguous to a tenure or holding. In either of these two latter cases a landlord may avail himself of the provisions of section 52 of the Bengal Tenancy Act, 1885 although he is not bound to do so as it has been held in the Calcutta High Court that he is entitled to sue in the Courts under the general law of the land irrespective of the Bengal Tenancy Act for additional rent in cases where it can be demonstrated that a particular area of land has been added to the original tenure or holding.

The Bill also provides that by application to the Courts tenants against whom suits were instituted under section 52 after the 27th of August 1937, [the date of publication of the Bengal Tenancy (Amendment) Bill, 1938] may, whether a decree has been passed or not, obtain a re-opening of the case in order that it may be decided under the provisions of section 52 as sought to be amended by the present Bill. This would naturally entitle both sides to amend their original pleadings if they desired, and to this end rule-making power is sought in order not to encumber the Act with small matters of procedural detail which will only be of temporary effect.

PART VI

Bills introduced in the Council of State and Legislative Assembly; Reports of Select Committees presented to the Council and Assembly; and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill* was introduced in the Legislative Assembly on the 8th August, 1938:—

L. A. BILL No. 12 OF 1938.

A Bill to amend the criminal law.

WHEREAS it is expedient to supplement the criminal law by providing for the punishment of certain acts prejudicial to the recruitment of persons to serve in, and to the discipline of, His Majesty's Forces; It is hereby enacted as follows:—

Short title, extent and commencement.

1. (*1*) This Act may be called the Criminal Law Amendment Act, 1938.

(*2*) It extends to the whole of British India.

(*3*) It shall come into force at once in the Punjab; and it shall come into force in any other province on such date as the Central Government may, by notification in the official Gazette, appoint in this behalf for the province.

Dissuasion from enlistment and instigation to mutiny or insubordination after enlistment.

2. Whoever—

(*a*) wilfully dissuades or attempts to dissuade the public or any person from entering the military, naval or air Forces of His Majesty, or

*The Governor General has been pleased to give the previous sanction required by section 108 (1) (c), read with section 313 (4) (a) of the Government of India Act, 1935, to the introduction in the Legislative Assembly of this Bill.

(b) without dissuading or attempting to dissuade any person from entering such Forces, instigates the public or any person to do, after entering any such Force, any thing which is an offence punishable as mutiny or insubordination under section 27 of the Indian Army Act, 1911, or sections 10 to 12 and 14 to 17 inclusive of the Naval Discipline Act as applied to the Indian Navy by the Indian Navy (Discipline) Act, 1934, or sections 35 to 37 inclusive of the Indian Air Force Act, 1932, as the case may be, VIII of 1911. XXXIV of 1934. XIV of 1932.

shall be punishable with imprisonment for a term which may extend to two years, or with fine, or with both.

Exception 1.—The provisions of clause (a) of this section do not extend to comments on or criticism of the policy of Government in connection with the military, naval or air Forces, made in good faith without any intention of dissuading from enlistment.

Exception 2.—The provisions of clause (a) of this section do not extend to the case in which advice is given in good faith for the benefit of the individual to whom it is given, or for the benefit of any member of his family or of any of his dependants.

STATEMENT OF OBJECTS AND REASONS.

A large number of public speeches designed to dissuade persons from enlisting in the Defence Forces or, in the alternative, to incite would be recruits to commit acts of mutiny or insubordination after joining those Forces have come to notice during the past eighteen months. The object of the speakers is clearly not the spread of pacifism, but to dissuade would be recruits from taking part in any war in which the British Empire may become engaged. The Bill is designed to penalise these activities.

GOVERNMENT OF INDIA.

Legislative Assembly Department.

The following Bill was introduced in the Legislative Assembly on the 8th August, 1938:—

L. A. BILL NO. 14 OF 1938.

A Bill further to amend the Indian Emigration Act, 1922.

WHEREAS it is expedient further to amend the Indian Emigration Act, 1922, for the purpose hereinafter appearing; It is hereby enacted as follows:— VII of 1922.

Short title.

1. This Act may be called the Indian Emigration (Amendment) Act, 1938.

Amendment of section 24, Act VII of 1922.

2. In sub-section (*2*) of section 24 of the Indian Emigration Act, 1922 (hereinafter referred to as the said Act),— VII of 1922.

(*a*) the word "and" at the end of clause (*j*) shall be omitted;

(*b*) after clause (*j*) the following clause shall be inserted, namely:—

"(*k*) the issue of the permits referred to in sub-section (*1*) of section 30A; and";

(*c*) the existing clause (*k*) shall be re-lettered clause (*l*).

Insertion of new section 30A in Act VII of 1922.

3. After section 30 of the said Act the following section shall be inserted, namely:—

Power to prohibit departure by sea from British India for the purpose of unskilled work.

"30A. (*1*) The Central Government may, by notification in the official Gazette from a date and for reasons to be specified in the notification, prohibit all persons or any specified class of persons from departing by sea out of British India to any specified country beyond the limits of India for the purpose of unskilled work unless possessed of a prescribed permit or otherwise exempted by general or special order of the Central Government from the provisions of the notification.

(*2*) Every notification issued under this section shall be laid before both Chambers of the Central Legislature as soon as may be after it is made.

(*3*) Whoever departs or attempts to depart out of British India in contravention of a notification issued under sub-section (*1*) shall be punishable with the punishment provided for an offence under sub-section (*1*) of section 25."

STATEMENT OF OBJECTS AND REASONS.

Under section 13 (*1*) of the Indian Emigration Act, 1922, the Governor-General in Council may prohibit all persons or any specified class of persons from *emigrating* to any specified country for the purpose of unskilled work. By virtue of the definition of the word 'Emigrate' in section 2 (*1*) of the Act the power given by section 13 (*1*) is restricted to persons under contract or assisted to depart. It has been found that the lack of power to regulate the total flow of emigration for unskilled work, whether assisted or voluntary and whether under contract or not, may operate to the detriment of Indian communities overseas, particularly in times of economic depression. The present Bill is intended to remedy the defect.

No. 6501Ind.—20th September 1938.—The following revised rules for (1) the grant of State Technical Scholarships from Bengal and (2) the guidance of the Government of Bengal Technical Scholars in Europe, are published for general information, in supersession of those issued previously.

H. GRAHAM,

Secy. to the Govt. of Bengal.

Rules for the grant of State Technical Scholarships from Bengal.

Prefatory Remarks.—Prior to the introduction of the Reforms, the Government of India controlled the grant of Technical scholarships tenable by statutory natives of India for study in Europe (which term also includes America) and four such scholarships were allotted to Bengal at one time. With the Reforms, these scholarships have been provincialised as far as they relate to provincial subjects as classified in the Devolution Rules. The Rules regulate the grant of such scholarships from Bengal and supersede all the previous Rules of the Government of India and this Government on the subject.

The following general principles will govern the grant of these scholarships:—

(*i*) Technical and practical training should be provided in India whenever possible, and training overseas should be reserved for students who have exhausted the facilities for such training in India and are in the best position to profit by further experience abroad.

(*ii*) Government scholars should only be sent out of India for a training in those subjects for which there is a real demand but no adequate provision in the country; and such scholars should be very carefully selected, only those being sent abroad who have been actually associated with practical industries in Bengal and are able to produce evidence that they have taken up such industries as their future career and, therefore, are likely to derive most advantage from such scholarships.

Rule 1.—The number of Technical Scholarships to be awarded by the Government of Bengal in a year will be decided with reference to the funds available during the year.

Rule 2.—The scholarships should ordinarily be for two years. This period may be extended up to five years, if the High Commissioner for India recommends that the extension is indispensably necessary for the completion of the scholar's training. The application for such extension should be made six months before the expiry of the existing scholarship. Where necessary, the period of scholarships will be preceded

by a practical training in a Workshop, Factory or Mine in India, as the case may be, for not less than one year and succeeded, where feasible, by one year's practical work on return.

Rule 3.—The scholarships will ordinarily be tenable in Great Britain, but when necessary facilities for training in a particular subject cannot be obtained in that country, the scholarship may be made tenable elsewhere.

Rule 4.—These scholarships will not be given for Law, Medicine, Forestry, Veterinary Science, Agriculture, Civil Engineering (other than Sanitary and Municipal Engineering) or Geology. Enquiry should first be made from the office of the High Commissioner in advance as to the facilities available for training. Certain suggestions regarding the standard qualifications required for training in particular industries for which scholarships will be awarded are incorporated in Appendices I and IA to these Rules.

Rule 5.—The subjects for the award of scholarships will be selected by the Board of Industries, Bengal. After the subjects are approved by Government in consultation with the High Commissioner, the scholarships will be advertised with a view to secure the best available candidates. The Board will also perform the following functions in this connection, viz.—

(*i*) selection and recommendation to Government of candidates for appointment as Technical Scholars;

(*ii*) making of suggestions to Government regarding the course of training to be followed by the scholars in Europe or elsewhere;

(*iii*) advising Government, where necessary, as to the nature of preliminary training which the selected scholars shall undergo for one year before their departure, and of the practical training which it is advisable that they should receive after their return; and, finally,

(*iv*) endeavouring, with assistance of local manufacturers and employers, to find employment for the scholars on their return.

Rule 6.—The object for which the scholarships are given is to assist in developing the industries of Bengal. A list of industries for the study of which scholarships will ordinarily be awarded are given in Appendices I and IA.

Rule 7.—The selected candidates must produce—

(*i*) satisfactory evidence of good character;

(*ii*) medical evidence of physical fitness to undergo a course of study abroad;

(*iii*) evidence of educational qualifications of the standard prescribed in Appendices I and IA to these Rules for particular industries or as may be prescribed from time to time for subjects not mentioned therein; and

(*iv*) satisfactory evidence of age (which must not exceed 25 years).

NOTE.—In the case of a candidate already resident in the United Kingdom who has applied for a scholarship, the High Commissioner should be consulted before a selection is made and, if necessary, his views should be obtained by cable.

Rule 8.—In special cases, a scholarship of a value to be fixed by Government, not exceeding Rs. 100 per mensem, may be given for preliminary training in India, and in special cases also a scholarship not exceeding Rs. 150 per mensem may be given to a scholar on his return to India, in order to assist him in commencing work in India. When a scholar has had a preliminary training in India, a report on his work and progress should be sent to the High Commissioner.

Rule 9.—As soon as the selection of a scholar has been made by the Government, the Director of Industries as Secretary of the Board of Industries should communicate to the office of the High Commissioner, in the form laid down in Appendix II to these Rules, the notification of award of the scholarships with the names of the scholars selected, their qualifications and proposed courses of study, together with all necessary certificates and testimonials including the students' applications. The special intention of the scholarships should also be mentioned as closely as possible and whether a definite degree or diploma is regarded as essential or not should also be definitely stated, the exact arrangements to be made in each case being left to the discretion of the High Commissioner. Instructions about scholars who begin their training with manual work should reach the High Commissioner by the 1st December and the candidates should reach England by March or April, of the following year. Where the scholar is to commence training with purely academic work, the intimation should reach the High Commissioner by May and the scholar should reach England not later than the middle of September.

Rule 10.—The scholarships carry with them no conditions as to any subsequent career or service under Government, and no expectations of such employment are held out. The Board of Industries in selecting subjects should exercise care, in order to secure that scholarships are only given where there is some prospect of the scholar's obtaining employment in which it will be possible to utilise in India the experience and training he will have gained.

Rule 11.—When a scholar is given a scholarship after his return, the Board should settle the nature of his practical training while he is drawing the scholarship, and should, if they think this fit and practicable, obtain from the new employer a report on the way in which the scholar has progressed during his training, and his value as a technological specialist. In such a case, the scholar should at the end of his period of training receive from the Board a detailed statement of his training.

Rule 12.—The Local Government should receive an annual report from the office of the High Commissioner of the progress made by each scholar in his training.

Rule 13.—The Local Government should, in January of each year, send a return to the office of the High Commissioner, showing how all scholars from the province who have returned since 1910 are employed, and what salaries they are drawing.

Rules for the guidance of the Government of Bengal Technical Scholars in Europe.

1. Every scholar will be required to forward to the Secretary to the High Commissioner for India (Education Department), India House, Aldwych, London, W. C. 2, ordinarily at least one month before

the date of departure from India, the sum of £40 for initial expenses on arrival in the United Kingdom. A scholar will have no claim to the payment of any instalment of his scholarship unless this deposit has been made. The deposit is held at the disposal of the scholar and may be reclaimed as soon as he reaches England to meet expenses of the purchase of clothes or other necessary equipment, but a scholar is advised to leave at least £10 on deposit to be available for emergencies or other expenses not covered by the conditions of the scholarship.

2. A scholar will be provided with a passage from India to the place of study in the United Kingdom, and, as a general rule, is required to travel by the all-sea route from India to England unless he himself elects to pay the cost of the overland journey from Marseilles to London, in which case he may apply for payment of the overland allowance as fixed from time to time by the High Commissioner. The full cost of the overland journey (rail and baggage expenses) shall in no case be refunded to a scholar unless he has been provided by the Government concerned with a steamer ticket to Marseilles and has been expressly instructed to travel overland.

3. Every scholar on reaching England must report himself in person to the Office of the High Commissioner for India (Education Department), India House, Aldwych, London, W. C. 2, and sign the undertaking referred to in Rule 6. He will be required to furnish his private address and to notify immediately any changes thereafter.

4. A scholar who wishes accommodation to be arranged for him on arrival in England should write to the Accommodation Officer, Education Department, Office of the High Commissioner for India, India House, Aldwych, London, W. C. 2, stating by what steamer he is sailing and giving some indication of the type of accommodation which he requires. Every scholar will be required, whenever possible, to reside in the hostel of the University or College where he is pursuing his course, though in special cases the High Commissioner will be prepared to consider applications for permission to live in private lodgings.

5. Every scholar pursuing courses of study or training in the United Kingdom, in Europe or in the United States of America is under the direct charge of the Secretary to the High Commissioner for India (Education Department), with the exception of those at Edinburgh, Cambridge, Glasgow, Manchester, and Oxford, who must follow the instructions given through the following officers, hereinafter referred to as Local Advisers:—

Edinburgh—The University Adviser to Indian Students, Department of Chemistry, The University, King's Buildings, Edinburgh.

Cambridge—The Secretary, Inter-Collegiate Indian Students' Committee, 22, Fitzwilliam Street, Cambridge.

Glasgow—The Local Adviser to Indian Students, The University, Glasgow.

Manchester—The Local Adviser to Indian Students, College of Technology, Manchester.

Oxford—The Secretary, Delegacy for Oriental Students, Indian Institute, Oxford.

All communications regarding courses of studies or training, payment of fees or other matters connected with the scholarship must be addressed, either to the Secretary to the High Commissioner for India (Education Department) or in the case of scholars at Edinburgh, Cambridge, Glasgow, Manchester, or Oxford, to the Local Adviser concerned. Scholars are not permitted to communicate direct with their Provincial Government in India in any matter affecting their scholarships.

6. Every scholar will be expected to consult the Secretary to the High Commissioner (Education Department) or his Local Adviser regularly in regard to his course of study or training. He must submit, either direct or through his Local Adviser, within one month after the beginning of his University, College or other training, a statement for the approval of the High Commissioner showing the exact course which he is pursuing. The High Commissioner will prescribe the course of study or training considered necessary to fulfill the purpose for which the scholarship has been awarded, and every scholar must obey all instructions regarding his course of study or training which he may receive either direct from the Secretary to the High Commissioner (Education Department) or from his Local Adviser. The course of study which has received the sanction of the High Commissioner may not be changed without his approval, and no additional course or subject of study or training may be undertaken without his prior sanction. A scholar will not be permitted, without the previous sanction of the High Commissioner, to enter for any examination not forming a normal portion of his sanctioned course. He will be required to give a written undertaking that he will at once and without discussion of possible alternatives devote himself exclusively to the course of study and training prescribed for him and that he will not delay or neglect his prescribed course in anticipation of orders regarding possible alternatives.

7. A scholar sent to this country for training in technical or industrial subjects will be required to undergo practical training under such conditions as may be prescribed by the High Commissioner. Whilst undergoing practical training, the scholar must keep, in a book supplied by the Education Department of the Office of the High Commissioner, a concise diary of his work. This diary, endorsed by the authorities under whom the scholar is working, must be submitted at the prescribed date to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser concerned.

8. A scholar undergoing practical training in works or in such professional subjects as Veterinary, Medicine, &c., will be entitled to three weeks' leave each year and must obtain the approval of the authorities under whom he is working and of the High Commissioner to the exact dates on which he proposes to take such leave. He must also submit at least two months in advance a full statement of his proposals for practical training during the vacations. A scholar attending university or college courses who proposes to spend his vacations on the Continent must submit his plans for the approval of the High Commissioner not less than one month before the beginning of the vacation.

9. In the absence of any special instructions from the Government concerned, scholarship allowance will be payable from the date on

which the scholar reports his arrival in person at the Office of the High Commissioner until the expiration of the full period for which it has been granted or extended or to such earlier date that the High Commissioner may determine having regard to the date at which the sanctioned course of study or training has been completed. Scholarship allowance will not be paid beyond the date of the sailing from London of the steamer on which the passage has been booked, except as provided in Rule 21.

10. Subject to a due compliance with the Rules, each scholar will be paid his annual stipend quarterly in advance. A first instalment to cover a full quarter will be paid as soon as possible after the scholar has arrived and has signed the necessary declaration on the form prescribed for the purpose. Three months after the date of arrival the amount to the ensuing official Quarter Day* will be paid to the scholar either direct or through the Local Adviser. Subsequent payments will be made in advance, on or after each official Quarter Day. It should, however, be understood that the High Commissioner (or the Local Adviser on his instructions) has full discretion to disburse the annual allowance of any scholar in such instalments as he may consider desirable.

11. Each scholar must submit, not less than 14 days before the date on which his scholarship instalment falls due, an application on a prescribed form endorsed with a certificate of satisfactory conduct and progress from the University, College or Works authority.

He will also be required to furnish annually on a prescribed form, copies of which will be supplied, a full statement of the course of study or training which he has pursued during each year ending 30th September. The instalment of scholarship allowance due on 1st October of each year will not as a general rule be issued until this annual report has been received. It should, however, be noted that the High Commissioner at his discretion may require a report on a scholar's work or conduct at any time.

12. The allowance of a scholar in receipt of wages whilst undergoing practical training will be reduced by a corresponding amount.

13. Advances on the quarterly instalments of scholarship allowance will not as a general rule be granted, except in respect of (*a*) caution money payable to Universities or Colleges, and (*b*) purchase of expensive instruments essential for the scholar's sanctioned course of study or training. Any advances thus sanctioned will be recoverable from the quarterly instalments of scholarship spread over a total period not exceeding one year.

14. The special attention of every scholar is drawn to the fact that no claim for payment of any expenditure whatsoever can be admitted unless the scholar has obtained previous sanction from the High Commissioner.

15. Scholars at Oxford and Cambridge will be required to meet from their scholarship allowance all their expenses, including university or college fees, except journeys to and from their place of study on arrival from India and on departure to India. A Language

*The official Quarter Days are 1st January, 1st April, 1st July, 1st October.

scholar at Oxford or Cambridge (i.e., a scholar pursuing research in Arabic, Persian, or Sanskrit) may, however, be granted travelling expenses from place of study, when going abroad, where such visits are certified as essential to his studies by the professor concerned and are sanctioned by the High Commissioner.

16. For scholars (other than those at Oxford or Cambridge), charges for university and college fees, including membership of the Student Union or equivalent society, premium for practical training facilities and the necessary travelling expenses of scholars by second class, or by third class if no second be available, shall, if sanctioned in advance, be defrayed by the High Commissioner. A scholar undergoing professional or technical training may be required at the discretion of the High Commissioner to join the appropriate society or institution, in which case his entrance fees and annual subscriptions will be defrayed by the High Commissioner. A sanctioned premium and university or college terminal or sessional fees will be paid direct to the university, college, or firm concerned by the High Commissioner. Examination fees and subscriptions, &c., to other institutions, where such have been sanctioned by the High Commissioner, will be paid by the scholar himself in the first place and refunded to him on production of the necessary voucher.

17. A scholar who proposes to undertake journeys or tours for the purpose of his course of study or training must submit an application either direct or through his Local Adviser at least 14 days before the date of the proposed visit. The application must be supported by a certificate or recommendation from the professor or head of department under whom the scholar is working that the journey is necessary for the purpose of his work. [*If the proposed visit or tour and estimate of expenses is approved by the High Commissioner, third-class travelling expenses, (second-class on the Continent) will be paid to the scholar on receipt of the claim on the appropriate form, supported by the necessary vouchers, together with halting allowance at the rate authorised, unless otherwise laid down when the journey is sanctioned.]

18. Charges for private tuition, unless specially sanctioned in advance, books, instruments, and medical attendance must be paid by the scholar himself.

19. Unless the conditions under which the scholarship was awarded preclude any extension, a scholar who wishes to apply for the extension of his scholarship must submit an application to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser, not less than six months prior to the expiration of the term of tenure. This application should state definitely the purpose for which the extension is desired and should be supported by the recommendations of the university or other authority under whom the scholar is pursuing his course of study or training.

20. A scholarship may be terminated at any time within the discretion of the High Commissioner—

(*a*) if the scholar's work and progress be considered unsatisfactory;

(*b*) if his conduct prove unsatisfactory; or

(*c*) if he fail in health;

---

*This sentence does not apply to scholars at Oxford and Cambridge.

in which cases, unless the High Commissioner sees reason to the contrary, the scholar will retain his right to a passage to India, provided he returns when instructed by the High Commissioner. Any scholar failing to return to India when instructed to do so by the High Commissioner will forfeit his right to a free passage.

A scholar who resigns his scholarship before the expiration of its tenure for reasons which, in the opinion of the High Commissioner, are not satisfactory, will be held to resign his claim to a return passage to India.

21. A scholar will be entitled to a return passage from the place of study to India. The arrangements for the voyage will be made by the Office of the High Commissioner, and a scholar is not entitled to make his own passage arrangements or to claim an allowance in lieu of a provided passage. At least three months before the termination of his course of study or training the scholar must submit to the Secretary to the High Commissioner (Education Department), either direct or through the Local Adviser, an application for a return passage. The scholar will normally be required to embark from a port in the United Kingdom, but he may be allowed at the discretion of the High Commissioner to join the steamer at Marseilles and will then be paid the overland allowance as fixed from time to time by the High Commissioner. If a scholar is definitely instructed by the High Commissioner to join the steamer at Marseilles, he will be allowed second-class travelling expenses from London to Marseilles and his scholarship allowance will be payable to the date of embarkation from Marseilles (unless it has already expired or been terminated). Travelling expenses in India will not be payable by the High Commissioner.

22. A scholar who desires to defer his return to India after the expiry or termination of his scholarship will, unless the Government concerned desire his return, be allowed to do so provided that the High Commissioner approves the purpose of the deferment and is satisfied that the scholar is in a position to maintain himself during the whole period of the proposed deferment.

23. Each scholar will be given a grant of £5 to meet incidental expenses during the voyage to India. This allowance will not be payable to officers in Government employ who are temporarily holding a scholarship, but whose official pay commences on the termination of the scholarship, nor will it be applicable to the case of a scholar returning to India on appointment to a Government post which entitles him to an advance of pay.

24. A scholar who intends to marry during the tenure of his scholarship must so inform the High Commissioner, who, in consultation with the Local Government concerned, may terminate or suspend the scholarship if he thinks fit in the special circumstances of the case.

NOTE.—In all the above Rules the masculine (he, him) must be understood to include the feminine (she, her).

Non-Collegiate Scholars at Oxford or Scholars at Fitzwilliam House, Cambridge ...	£300 per annum.

APPENDIX I.

Suggestions regarding Special Industries.

I. Engineering.—(*i*) All Engineering students of whatever branch should receive a year's preliminary workshop course in a mechanical engineer's shop in India.

(*ii*) Indians who come to the United Kingdom for their College Course should have taken the B.A., B.Sc., or B. Eng. degree and have received a training in Mathematics, Physics, Chemistry and Engineering Drawing of a sufficiently advanced character to enable them to join a second-year class at once; special instruction in Mechanical Drawing and Descriptive Geometry is required, and should be given in India.

II. Mining.—(*i*) Scholarships in Mining (as distinguished from Geology) shall only be given to men who intend to become Mine Managers or Mining Engineers.

(*ii*) In every case the candidate shall have actually worked for at least one year in an Indian mine—preferably in a paid position.

(*iii*) A specially strict test of physical fitness shall be imposed on candidates before selection.

(*iv*) The candidate shall have reached the B.A. or B.Sc. standard in Physics (Theoretical and Practical), Chemistry and Mathematics, Mechanics and Practical Geometry.

III. Mining Geology.—Candidates should possess a knowledge of Economic Geology and some experience of Surveying and Mining Methods.

IV. Metallurgy.—(*i*) Scholarships should be granted only to men who have had previous experience of metal industries, a knowledge even of primitive processes being valuable; and candidates who lack such experience should be sent for some months to metal works in India before coming to this country for their training.

(*ii*) If possible, notice should be given beforehand of the branch of Metallurgy that the scholar intends to take upon his return to India.

V. Spinning and Weaving.—Scholars should in all cases have had considerable experience in one or more Indian Mills, preferably through having served in a paid position.

VI. Bleaching and Finishing.—It is almost impossible for Indian students to obtain in England anything more than the training given in Technological Colleges and, in order that they may complete this by practical experience, efforts should be made to secure openings for a few carefully selected men in up-to-date bleaching establishments in India: but in the woollen industry facilities for practical training are now procurable to a limited extent in Europe.

VII. Dyeing.—No scholarship should be granted to a candidate who does not possess some knowledge of the dyeing industry as carried on in India, and who has not reached the B.Sc. standard in Chemistry.

VIII. Tanning.—(*a*) As regards students who aim at becoming owners or managers of tanneries—

(*i*) connection with the leather industry is desirable, and a knowledge of Indian methods is essential; and

(*ii*) where these conditions are satisfied, high academic qualifications need not for the present be insisted upon; a fair knowledge of Chemistry, Physics and some knowledge of Mathematics and acquaintance with the metric system of weights and measures will suffice.

(*b*) As regards those who intend to take up scientific research as applied to leather industries—

(*i*) the scholarship shall only be granted after the student has received the highest scientific training in India; and

(*ii*) he must have shown considerable aptitude for research work.

IX. Chemical Manufactures.—The grant of scholarships for the study of chemical industries in the United Kingdom is of doubtful utility; training in India would be preferable, and, before any such scholarship is granted, inquiry should be made as to the possibility of providing in Europe a complete training in the special branch of industry concerned, full particulars being furnished to the office of the High Commissioner as to candidates' qualifications and prospects of finding employment on their return to India.

APPENDIX IA.
